Chairman's Statement

Dear Shareholders,

Financial year 2012-13 was yet another challenging year for the Indian economy. The investment scenario was weighed down by numerous factors such as delays in statutory approvals, slow decision-making, land acquisition issues, volatility in commodity prices and exchange rates, higher capital costs and non-availability of raw material. Accentuating the low business and investor confidence, the Reserve Bank of India (RBI) revised downward, the GDP growth forecast to 4.8 percent for the period April 2013 to March 2014.

The uncertain macro-economic environment also affected Siemens Ltd., which operates in the business segments of infrastructure, power, industrial automation and healthcare. While order growth was reasonable, revenues declined and the Company's profitability was also impacted due to increased project costs, lower off-take of finished goods and project delays.

Performance highlights

For the financial year ended September 30, 2013, the Company received new orders valued at ₹ 10,957.3 crores, a 7% increase over ₹ 10,235.1 crores in the financial year ended September 30, 2012. Sales were down by 12% to ₹ 11,145.2 crores, compared with ₹ 12,708.1 crores in the previous year.

The order backlog as of September 30, 2013 stood at ₹ 12,926.4 crores – a decline of 5% compared with ₹ 13,660.4 crores in the previous year. Profits from operations stood at ₹ 170.5 crores, down by 75% compared with ₹ 690.3 crores in financial year 2011-12.

For the year ended September 30, 2013, the Company's profit before tax stood at ₹ 218.6 crores, down by 58% compared with ₹ 520.9 crores in the previous year. The profit after tax for the year was ₹ 194 crores, down by 43% compared with ₹ 343.2 crores in the previous year.

The Board of Directors has recommended a dividend of ₹ 5 per equity share of face value of ₹ 2 per share for the financial year ended September 30, 2013. The Company had paid a dividend of ₹ 6 per equity share during the previous financial year.

Performance analysis

Keeping the challenging economic conditions in perspective, all four Sectors – Energy, Healthcare, Industry and Infrastructure & Cities – performed at par with the market.

Among the highlights of the financial year 2012-13, the Energy Sector won an order to install a state-of-the-art distributed control system for the renovation and modernization of the Korba Stage-II plant of National Thermal Power Corporation. The Sector was awarded a contract by Bangladesh Steels Re-Rolling Mills Ltd. to supply the first private sector funded gas-insulated switchgear substation project in Bangladesh. It also established Global Engineering Centres in Coimbatore and Mumbai in order to strengthen its capability to support global customers with high quality, end-to-end solutions.

The Healthcare Sector received a major order from Sir H N Hospital and Research Centre, Mumbai (Reliance) for the complete imaging package. Additionally, NM Medical, a diagnostic imaging chain with a pan-India presence, selected Siemens MAGNETOM Spectra 3T MRI scanner for installation in its new diagnostic center at Sancheti Hospital in Pune. This will be one of the first installations of MAGNETOM Spectra with the newly introduced 3T MRI in the country. Other major highlights include the installation of India's first simultaneous PET MRI at Indraprastha Apollo, New Delhi and Somatom Definition Edge, the newly-introduced Cardiac CT scanner at PSG Hospital, Coimbatore.

The Industry Sector received an order from Rashtriya Ispat Nigam Ltd. to modernize the Visakhapatnam steel plant. The Steel Authority of India Ltd. signed a three-year Memorandum of Understanding (MoU) with the Sector's SITRAIN unit to provide training for its technical staff. The Sector also unveiled the Siemens Productivity Tour, a nationwide, multi-city mobile road show aimed at providing small and medium manufacturing enterprises across India with technologies that will enhance their productivity and efficiency.

The Infrastructure & Cities Sector secured two new contracts to construct 38 sub-stations that will improve power distribution throughout Bangladesh. The Sector continued to support Bangladesh's Rural Electrification Board in its efforts to provide reliable power supplies and improve economic development in western Bangladesh. In this connection, the Sector installed and upgraded existing power distribution facilities in the country. The Sector also won

orders to supply rolling stock, electrification and a signaling system for the Gurgaon Metro and Delhi Metro, thereby improving travel for over 30,000 passengers per hour.

The Company continued its focus on its localization initiatives under the SMART (simple-to-use, maintenance-friendly, affordable, reliable and timely-to-market) strategy and launched additional solutions such as SMART@MT packages for the metals industry and SMART numerical relays. The SMART products provide a competitive edge to the Company over local and Asian competitors through a combination of quality features and affordability.

Corporate Responsibility

Siemens Ltd. has been conscious of its responsibilities as a corporate towards all its key stakeholders – society, employees, customers and the environment.

During the financial year 2012-13, Siemens Ltd. increased its focus on the social and education sector through corporate citizenship initiatives. I am glad to inform you about the success of 'Project Asha', an integrated, sustainable development initiative that is transforming the lives of around 300 villagers in Amle village, around 130 kilometers from Mumbai.

Among other corporate citizenship initiatives at Siemens in India is Sanjeevan Mobile Clinic that provides accessible and affordable primary healthcare focusing on community outreach, health promotion, preventive education and curative services in remote rural areas. The Company has also undertaken upgradation of various Industrial Training Institutes (ITIs). The Company has also awarded scholarships for engineering students from less-privileged communities and continues to provide support for the development of children at the Welfare Society for Destitute Children, Mumbai. These initiatives are already content-wise, fully in line with the recent amendment to the Company's Act.

In addition, our sustainability initiatives were also acknowledged by the Confederation of Indian Industry (CII), when the Company was ranked Number 1 in the Capital Goods Sector (as per BSE classification) and graded as a Sustainable Plus Platinum Company as part of CII's Sustainability Rating. The Company was amongst the Top 6 out of the Top 100 listed companies in India.

People excellence

Siemens Ltd. continued to focus on the sustained development of its dynamic workforce, an important asset to the Company. New learning and development programs launched included the 'Local Key Expert Career Program' aimed at developing customized career paths linked to critical business roles in research and development, engineering and manufacturing.

Various HR processes were simplified and made flexible, such as medical insurance, group personal accident insurance, parents' insurance and superannuation fund.

As of September 30, 2013, the Company's employee strength was 11,539 as compared to 12,041 as of September 30, 2012. This includes an addition of 908 employees as a result of the merger of Siemens Power Engineering Pvt. Ltd. and Winergy Drive Systems India Pvt. Ltd. The new employees have been integrated into the Energy Sector and Industry Sector respectively.

During the financial year 2012-13, the Company initiated measures to optimize capacity and resource utilization across locations to counter the lack of market demand.

The Company continues to have a cordial relationship with its unions.

The road ahead – the outlook for Siemens Ltd.

While the company has already initiated measures to optimize its cost position and productivity in the factories, the growth of the Company is also dependent on the implementation of government policies to promote infrastructure development within the country and create an environment conducive to investment in capital goods.

It is therefore imperative that the government and the RBI work in unison to take urgent steps to create an investment friendly environment. The recent clearances given by the Project Monitoring Group and the Cabinet Committee on Investment for projects in the power and infrastructure space are positive signs, but more needs to be urgently done.

In conclusion, I would like to sincerely thank our customers, the board, management, unions and most importantly, the dedicated employees for their consistent support and commitment to Siemens Ltd. during a very challenging year.

A. Conservation of Energy

a. Measures taken:

- Installation of Energy efficient appliances.
- Use of solar energy to preheat dish washing machine water.
- Reduction in forklift movement across various shops.
- Maintaining Power factor up to 0.996 (unity).
- Recharge 2 nos. wells for rain water conservation to increase water table.

b. Additional investments and proposals, if any being implemented for reduction of consumption of energy:

- Replacement of air purifier with energy efficient purifier and removal of leakages in system.
- Use of drip irrigation and removal of leakages.

c. Impact of Measures undertaken:

- Optimization of energy consumption.
- Savings in energy and fuel cost.
- Environment Protection.

B. Research and Development (R&D)

1. Specific areas in which R&D was carried out:

- Enhancement of our range in LV motors by manufacturing upto 1750kW 690V LV range motors in India.
- Introduction of IE2 and IE3 range of high efficiency motors in Indian market conforming to IS:12615.
- Development of special industrial motors in dual speed with single stator winding for rugged applications suitable for 1000 Ton Press-brake (with fluctuating torques), for auto-industry.
- Design and realization of current transformer operated thermal overload relay for 3RT Sirius family.
- Development of 36kV, 1250A / 2500A, 1AC 0.1sec / 1sec, 31.5kA indoor switchgear, switching device compartments for 12kV and 33kV ratings and ring main unit for ratings 12kV, 21kA / 1sec.

2. Benefits derived as a result of the above R&D:

- Cost effective product
- Energy efficient products.
- Overall cost reduction.
- Opportunity to tap new market.
- Improved quality.
- Enhancement of product portfolio.
- Reduced time to market the product.
- In-house competency for higher capacity motors.
- Enhancement of safety features of the product while fully complying with the latest standards.
- Saves space for the customers.

3. Future Plan of action:

- Development of Auxiliary Converter 500kVA for Electric Locomotives.
- Ramp up of current transformer operated thermal overload relay for 3RT Sirius family.
- Design and realization of improved contactors for switching capacitor banks.
- Sales release for 8DJH ST 310mm CB.
- Introduction of new products in markets.
- Development and localization of global platform products aimed at providing advantages and features presently available in European designs.

4. Expenditure on R&D:

- a. Capital Expenditure: ₹ 150 million
- b. Revenue Expenditure: ₹ 195 million
- c. Total Expenditure: ₹ 345 million
- d. Total R & D expenditure as a percentage of total turnover : 0.30%

C. Technology Absorption Adaption & Innovation

1. Efforts undertaken:

- Designs of Copper rotors for 1LA8 45 & 40 motors were replaced in aluminium die casting technology by adapting 1LA4 platform and still meeting or exceeding the copper bar rotor parameters of efficiency and temperature rise.
- Interaction & Training with external agencies / technology partners for exposure to the latest products / designs, manufacturing technologies, processes, analytical techniques and engineering protocols.
- Integration of induction brazing generator (source), customized induction coils with in-house designed & built operational interfacing mechanism.
- Local customization of Sensors communication products including test certification with high precision calibration equipments.

2. Benefits derived from the above:

- Reliability of operation, increase in speed and consistent quality enabling localization with global standard.
- Meeting the need of Customers who would like to witness calibration, lead time reduction.
- Reduced dependence on imported technology.
- Environment friendly process, reduction in hazardous waste.
- Overall cost reduction.
- Increased market coverage.
- Reduction of cost in product thus improving product competitiveness

3. Imported Technology:

Technology Imported	Year of Import	Has the technology been fully absorbed	If not fully absorbed, areas where this has not taken place, reasons therefore and future plans of action.
Generator for Induction brazing	2012	Yes	Not Applicable
Calibrating equipments (Local customization of Sensors communication products including test certification with high precision calibration equipments.)	2012	Yes	Not Applicable

D. Foreign Exchange Earnings and Outgo

1. The Company manufactures products for the local market which could also be exported to other markets having similar requirements. Among the products being exported are GIS substations, high-performance and energy-efficient technologies such as control relay panels and substation automation systems, metals technologies, oil and gas, instrumentation and electicals, energy service and power transmission solutions.
2. The Company focused on implementing projects and installing solutions in new as well as existing markets of Bangladesh, Sri Lanka, various countries of South East Asia, Africa, Europe and the Middle East.
3. The Company actively pursues projects as well as product sales in overseas markets. We expect demand for products in our base-level or SMART portfolio.

Management's Discussion & Analysis

General performance review

India's gross domestic product (GDP) growth dropped to a four-year low of 4.4 per cent in the April-June quarter of 2013, one of the lowest growth periods in the last decade. The major factors contributing to this low rate of growth were high interest rates, weakening demand and uncertain economic conditions.

Interest rates in general remained elevated during the financial year 2012-13, dampening both consumption as well as investment demand. The latest Index of Industrial Production data was also disappointing, registering a growth of 0.6% in August 2013. The uncertain economic conditions were reflected in the fact that major infrastructure and power projects remained stalled during the year due to delayed decision-making and issues related to land acquisition, environmental clearances, liquidity and availability of raw material. According to Reserve Bank of India, the business confidence in India remains weak with companies scaling down their investment plans.

In addition, the past year witnessed volatility in commodity prices and exchange rates. This in turn affected India's current account deficit and consequently led to further liquidity tightening measures by the Reserve Bank of India. The Indian Rupee depreciated by almost 18 percent for the period October 2012 to September 2013, touching a low of ₹ 68.4 per US dollar in August 2013, with the volatility adding to the uncertainty in the business environment.

Siemens Ltd.'s results during financial year 2012-13 were also impacted due to these factors. New orders were up by 7% at ₹ 10,957.3 crores in financial year 2012-13, compared with ₹ 10,235.1 crores in financial year 2011-12. Sales were down by 12% to ₹ 11,145.2 crores, compared with ₹ 12,708.1 crores in financial year 2011-12, while profit after tax (PAT) was down by 43% at ₹ 194 crores compared with ₹ 343.2 crores in financial year 2011-12.

ENERGY SECTOR

The power segment continued to face issues related to land acquisition, environmental clearances, power tariffs and fuel linkages. During the financial year 2012-13, the market for power equipment was characterized by sharply reduced demand, overcapacities and consequently lower prices. Despite these challenges, the Energy Sector was in a position to retain its overall market share.

During the financial year, the Energy Sector set up Global Engineering Centres for Compressors and Oil & Gas Solutions

businesses in Mumbai and Coimbatore respectively. The Sector won an order worth ₹ 66 crores from National Thermal Power Corporation Ltd. to modernise its Korba Stage II plant. It also won an order worth ₹ 104.4 crores from Bangladesh Steels Re-Rolling Mills Ltd. (BSRM), the largest steel manufacturing company in Bangladesh, to build a Gas Insulated Switchgear (GIS) substation. This is the first private sector-funded GIS substation project and the largest order size in the GIS segment in Bangladesh.

Among other milestones, the Sector handed over the Unosugen combined cycle power plant in India to the customer, Torrent Power Ltd. The state-of-the-art and environmentally-friendly fossil fuel-fired power plant has an installed capacity of approximately 380 megawatts (MW) and an efficiency level of 57 percent, one of the highest in India. The Sector also successfully designed and developed, in collaboration with the parent company Siemens AG, a 1200kV double-break disconnector, the highest-rating disconnector in India, at its factory in Hyderabad.

During the financial year 2012-13, the Company completed the amalgamation of Siemens Power Engineering Pvt. Ltd., a 100% subsidiary of Siemens AG.

For financial year 2012-13, the new orders were up by 15% to ₹ 3,121 crores, sales fell by 24% to ₹ 3,937 crores, while profits from operations were ₹ 46 crores.

Outlook

The investment climate in the power sector is expected to remain subdued and projects are expected to get delayed due to various prevailing factors such as lack of fuel supply, delayed statutory clearances, liquidity constraints and land acquisition issues. The recent clearance of 28 stalled power and infrastructure projects involving an investment of ₹ 50,000 crores is a positive sign. However, further actions will be required to drive the investment in the sector. The Energy Sector has been gearing up to meet this challenging market situation by focusing on improving the cost position and strengthening the Sector's competitive edge.

HEALTHCARE SECTOR

The growth of the overall healthcare market is directly linked to the growth of the economy as a majority of healthcare costs are paid for 'out-of-pocket' by patients – a fact attributed to the low penetration of insurance services in India. The Healthcare Sector was also affected by the exchange rate fluctuation.

Annexure II to the Directors' Report (Continued)

Management's Discussion & Analysis

Among the highlights of the financial year 2012-13, The Healthcare Sector received a major order from Sir HN Hospital and Research Centre, Mumbai (Reliance) for the complete imaging package including Computerized Tomography (CT) scan, Magnetic Resonance Imaging, Cath Labs and other imaging equipment such as Ultrasound and X-ray. Additionally, NM Medical, a diagnostic imaging chain with a pan-India presence, selected Siemens MAGNETOM Spectra 3T MRI scanner for installation in its new diagnostic center at Sancheti Hospital in Pune. This will be one of the first installations of Magnetom Spectra with the newly-introduced 3T MRI in the country. Other major highlights include the installation of India's first simultaneous PETMRI at Indraprastha Apollo Hospital, New Delhi and Somatom Definition Edge, the newly-introduced Cardiac CT scanner, at PSG Hospital, Coimbatore.

Other new solutions launched during the financial year include the Perspective 128 Slice CT system which consumes lower power and is easy to install; the Freestyle ultrasound system that features a wireless hands-free probe; and the X700 Economy ultrasound with high-end features.

In spite of the challenging macro-economic conditions, for financial year 2012-13, the new orders were up by 17% to ₹ 1,237 crores, sales grew by 3% to ₹ 1,115 crores, while profits from operations were ₹ 31 crores.

Outlook

The Healthcare Sector provides end-to-end solutions including diagnostics, imaging and therapy. With the market for healthcare services expected to grow in moderation, the Sector will seek to increase market penetration for its range of solutions by expanding its distribution channels and customer interface points. In addition, cost optimisation, profitability enhancement and strengthening the organisation's capabilities will remain key focus areas.

INDUSTRY SECTOR

During the financial year 2012-13, the Industry Sector was affected by issues such as lower capital investments by customers across verticals which led to delays in project closures and in the finalisation of new projects. Reduced access to capital, fluctuating exchange rates and consistently high interest rates further pushed up the cost of capital across key industry verticals. The Original Equipment Manufacturers, one of the key sales channel for the Industry Sector, were also affected by the slowdown which resulted in low order backlog and pile up of finished goods inventory.

Customer segments such as Food & Beverages, Cement and Chemical showed positive signs whereas Automobile, Metals, Power and Mining showed a decline.

During the financial year 2012-13, Industry Sector received an order worth ₹ 271 crores from the Rashtriya Ispat Nigam Ltd. (RINL) to modernise blast furnace No. 2 at Visakhapatnam Steel Plant (Vizag Steel). The Sector also signed a three-year Memorandum of Understanding with Steel Authority of India Ltd. whereby SITRAIN, the Industry Sector's training services unit, will provide technical training to all personnel of SAIL Plants involved in projects, maintenance and other technical departments.

Among other highlights of the financial year, the Industry Sector launched SMART@MT packages for the metals industry such as electric arc furnace and circular pelletization technology, expanding the SMART (simple-to-use, maintenance-friendly, affordable, reliable and timely-to-market) portfolio of locally-designed and manufactured solutions for the steel industry. The Sector also launched SIMATIC PCS 7 CPU410-5H Process Controller – the fastest and the most powerful process controller in the Indian market. Other key product launches were S7-1500 Programmable Logic Controller for medium to high-end machine and plant automation, and SINAMICS V20 inverter for standard applications in India.

With an aim to improve customer proximity and showcase its offerings for the small and medium enterprises, the Sector launched a mobile road show called "Siemens Productivity Tour" covering 204 locations in 86 cities. It also organised over 100 in-plant seminars across India to promote energy efficiency through the use of IE2 and IE3 efficiency class low-voltage motors.

During financial year 2012-13, the Company completed the amalgamation of Winergy Drive Systems India Pvt. Ltd.

For financial year 2012-13, the new orders were down by 9% to ₹ 3,048 crores, sales fell by 11% to ₹ 3,344 crores, while profits from operations were at ₹ 24 crores.

Outlook

The Industry Sector expects a continued moderation in demand. With key Original Equipment Manufacturers focusing on cost reduction due to various factors such as inflation, fluctuating exchange rates and high interest rates, the sector will continue to face pressure on costs.

Demand is expected to be driven through initiatives taken by various industry verticals for modernising their manufacturing systems. These initiatives are aimed at improving productivity

and efficiency while saving energy consumption. The Industry Sector will continue to tap new opportunities in the product business as well as value-added services such as plant maintenance.

INFRASTRUCTURE & CITIES SECTOR

Reflecting the challenging macro-economic environment, the Infrastructure & Cities Sector witnessed reduced investments in greenfield and modernisation projects in financial year 2012-13. This was largely due to the slow pace of government decision making and high interest rates. A few of the long-pending projects include the Navi Mumbai airport, elevated rail corridor, Mumbai Metro and the locomotive manufacturing factories by Indian Railways.

Among the orders won by the Infrastructure & Cities Sector during the financial year 2012-13 were: ₹ 176 crores order for the electrification of Phase III of the Delhi Mass Rapid Transit System (MRTS), a turnkey project worth ₹ 184.1 crores from IL&FS Rail Ltd. for the Gurgaon Metro South Extension project and two contracts aggregating ₹ 144 crores from the Rural Electrification Board, Bangladesh to build and modernise substations.

During the year, the Infrastructure & Cities Sector launched a device for the remote monitoring of locomotives in rail systems. Once installed, the device captures real-time data, which is transferred to the central monitoring unit using global positioning system (GPS). This solution delivers increased productivity and improved response time for maintenance activities. New solutions that were added to the portfolio included auxiliary relays, numerical relays, FRTUs and 33kV air-insulated switchgears.

During the financial year 2012-13, Siemens Ltd. initiated the sale and transfer of its Postal & Parcel Logistics Technologies and Airport Logistics Technologies business (both forming part of the Infrastructure and Cities Sector) to Siemens Postal Parcel & Airport Logistics Pvt. Ltd., a 100% subsidiary of Siemens AG, effective from the close of business on September 30, 2013 for a consideration of ₹ 129 crores and recorded profit of ₹ 115 crores.

For financial year 2012-13, the new orders were up by 15% to ₹ 3,521 crores, sales up by 2% to ₹ 2,750 crores, while profits from operations were ₹ 53 crores.

Outlook

The existing infrastructure capacity is under pressure due to a widening gap in demand and supply. The demand is driven

by the growing levels of urbanisation, industrialisation and population growth. The central and state governments have been increasing their focus on development and capacity expansion of all sectors of infrastructure including power transmission and distribution, roads, railways, ports and airports. This provides opportunities for the Infrastructure & Cities Sector in the areas of safety, modernisation and greenfield projects. However, project delays are foreseen due to the high cost of financing and slow decision making.

The market continues to remain highly challenging. The sustained liquidity issues could result in postponement of new projects and delays in executing existing projects. The Infrastructure & Cities Sector is focusing on further strengthening its processes, quality, productivity, safety and project execution capabilities.

Internal Control Systems

The Company has a robust internal control framework that ensures the integrity of financial reporting and adherence to guidelines defined for Siemens Ltd. in a systematic manner. In financial year 2012-13, the Internal Control process was further improved through simplification of the assessment process, enhancing the knowledge of independent assessors and stronger focus on sustainable remediation of control weaknesses identified through the assessment process.

Siemens Ltd. has outsourced the internal audit function to Corporate Finance Audit, the Global Audit Department of Siemens AG. The Internal Audit team develops a flexible risk-based audit plan for the Company, which includes a mix of financial, operational, compliance and IT topics. The audit coverage includes corporate, core business operations, as well as support function activities. The annual internal audit plan is approved by the Company's Audit Committee. The key audit results and recommended management actions are presented to the Audit Committee on a quarterly basis.

Compliance

During the financial year 2012-13, Siemens Ltd. continued its focus on compliance in all areas of its business by rationalising and strengthening controls to ensure the adherence to compliance. Over 5,000 employees were trained on ethical behaviour as part of the Integrity Dialogue training. Approximately 500 employees underwent training on Anti-Trust topics which assumes relevance in the current business environment. The Compliance team further conducted training sessions to promote "Zero Tolerance approach" to key external stakeholders such as Custom House Agents, Business Partners and Vendors.

Management's Discussion & Analysis

Siemens Ltd. continued to be actively involved in the Collective Action initiatives. The Company's Compliance Officer along with the parent company Siemens AG's Global Head of Collective Action presented Siemens initiatives against corruption at the 10th Principle against Corruption conference organised by Global Compact Network in New Delhi. The Compliance Officer also represented Siemens Ltd. at the 19th PACI (Partnering Against Corruption Initiative) Task Force meeting in New Delhi. The meeting was organised to share the best practices and the initiatives taken by PACI to combat corruption globally. Siemens Ltd. also partnered with Caux Initiatives of Business on "Sustaining Growth and Governance in the Industrial Context" across India. (Details on compliance activities are included in the Business Responsibility Report available on www.siemens.co.in)

Safety and environment

For the financial year 2012-13, Siemens Ltd. initiated various measures to achieve the goal of "Zero Fatality, Safe Workplace". The Company has adopted a four-level Environment, Health and Safety management structure with the overall objective being 'zero harm culture'. Contractors and customer managers play an integral role in the overall site EHS evaluation to ensure an optimum mix of trained resources are deployed to mitigate safety risks.

A total of 36,694 man hours of safety training was conducted during the financial year. The Company's manufacturing units in India have already implemented international EHS standards like ISO 14001 and OHSAS 18001. (Details on EHS activities are included in the Business Responsibility Report available on www.siemens.co.in)

Human Resources Initiatives

Committed and motivated employees are one of the most important assets for the Company. During the financial year 2012-13, Siemens Ltd. focused on various strategic learning programmes, employee engagement and health management initiatives aimed at the strategic development of this dynamic workforce.

To simplify existing HR processes and further reduce complexity, the concept of Lean was implemented in Human Resources. Some of the processes identified for implementing Lean were hiring, training and employee settlement.

To motivate, develop and retain its employees, the Company continued its emphasis on developing leaders at different levels and organised a variety of initiatives to support this objective.

- a. Q-LEEP (Quantum-Leadership Enhancement through Excellence in People management): 150 middle-level managers participated in the programme aimed at improving people management skills through self-awareness and coaching.
- b. People Business Management (PBM)-3, a Core Learning Programme, which focuses on preparing employees who would be taking on managerial responsibilities in the future.

Another key initiative Local Key Expert Career Programme was launched in line with the global process. The programme is aimed at developing customised career paths for employees and is linked to business-critical roles in Research & Development, Engineering and Manufacturing. The selection of the key experts is aligned with the technology landscape of the business.

Various HR processes were simplified and made flexible, such as medical insurance, group personal accident insurance, parents' insurance and superannuation fund.

As of September 30, 2013, the Company's employee strength was 11,539 as compared to 12,041 as of September 30, 2012. This includes an addition of 908 employees as a result of the merger of Siemens Power Engineering Pvt. Ltd. and Winergy Drive Systems India Pvt. Ltd. The new employees have been integrated into the Energy Sector and Industry Sector, respectively. During the financial year 2012-13, the Company initiated measures to optimize capacity and resource utilization across locations to counter the lack of market demand.

The Company also continues to have a cordial relationship with its Unions.

Outlook for Siemens Ltd.

Siemens Ltd. operates in all the areas that contribute to modernising infrastructure, and has solutions for the entire energy matrix (generation, transmission and distribution), intra-city and inter-city mobility, industrial automation and healthcare.

The Company has a strong, established local manufacturing footprint with R&D facilities that has helped position Siemens Ltd. as a technology provider of choice for customers in India. The bundled financing solutions offered by Siemens Financial Services Pvt. Ltd., a non-banking finance company and a wholly-owned subsidiary of Siemens AG., are also an added advantage. On the basis of these strengths, the Company expects profitable and sustainable growth in the future.

However, to drive the growth of the overall economy, it is imperative that concrete steps are taken by the government, which will create an environment for increased capital expenditure across verticals. The revival of large stalled projects and the pipeline cleared by the Project Monitoring Group and the Cabinet Committee on Investment recently may sustain investment and overall activity during the next financial year.

Business Responsibility Report - Overview

Sustainability at Siemens is integrated across all business activities and proactively extends to influence the value chain. The three aspects of sustainable development – environment, business and society – are well ingrained in our values, ethos, policies and practices to drive our sustainability agenda. We are guided by Siemens AG's Sustainability Program (SSP) to steer our efforts in creating long term stakeholder value while minimizing environmental and social impacts.

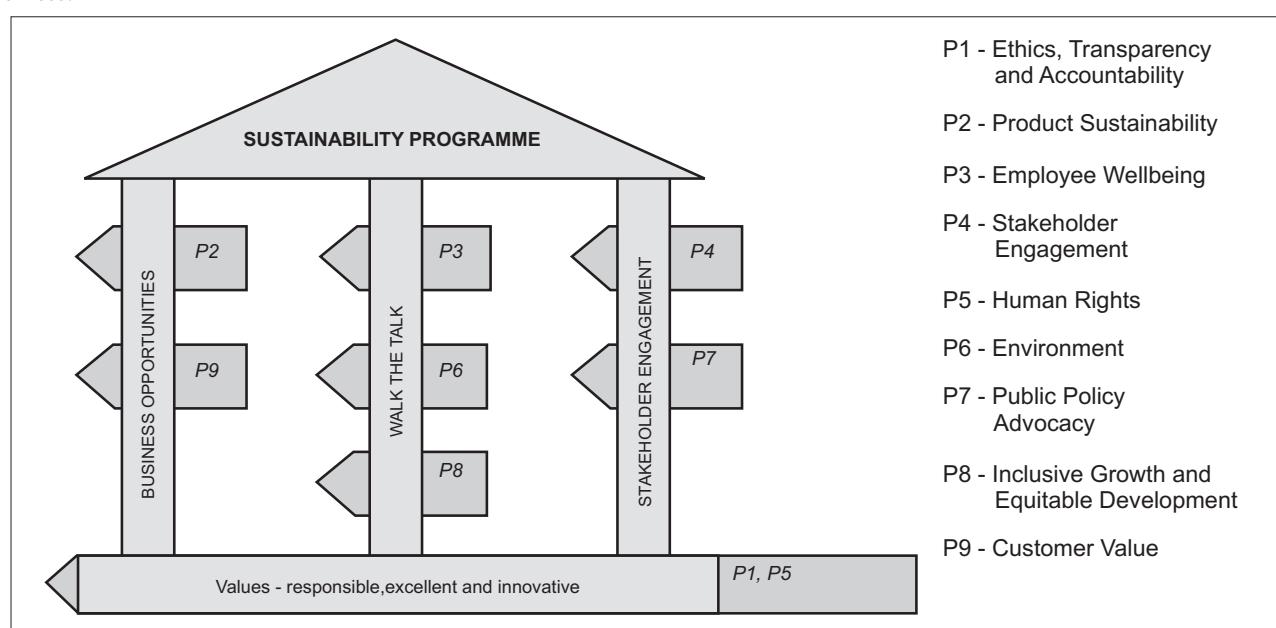

We have institutionalised a well-defined governance structure supported by relevant policies, internal regulations and procedures to ensure consistent implementation of SSP. We have a Sustainability Council which is chaired by the CEO and Sustainability Workgroups which exist across our four sectors of our major operations of Energy, Healthcare, Industry, and Infrastructure & Cities.

Materiality serves as a guiding principle for us to map issues that are of significance to our long term sustainable business success as well as those that reflect stakeholder concerns and expectations. These issues are aligned to global megatrends – urbanization, climate change, demographic change, and globalization – which we believe will shape the way businesses will operate in the near future. Our Sustainability Program is developed to seize these future opportunities and minimize risks for business, environment and society. The SSP has clear linkages to the National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business.

Recognition for sustainability	
2012	Siemens Limited was ranked no. 1 (Capital Goods Sector – BSE Classification) in CII Sustainability Rankings and rated Platinum Plus
2013	Siemens is again ranked as the world's leading industrial company in the Dow Jones Sustainability Index (DJSI)

Innovation is at the core of Siemens market leadership position, in providing sustainable technologies that help customers reduce energy costs and protect the environment. We have developed an Environmental Portfolio (EP) to deliver green technologies to help our customers address energy and environmental issues. EP products and services are designed to address Renewable Energies, Fossil Power Generation, Power Transmission and Distribution, Industry Solutions, Mobility, Building Automation and Healthcare.

We believe in positively influencing our value chain by extending our sustainability agenda to suppliers, vendors and channel partners. We have adopted a risk based supplier selection and approval framework which enables us to proactively identify the risks associated including those on sustainability issues. The framework consists of sustainability self-assessments by suppliers, risk evaluation conducted by the buyer, sustainability module as part of supplier quality audits, and sustainability audits by external auditors.

Business Responsibility Report - Overview

Employees are our key assets. Promoting employee diversity through integration of women at all levels within organisation is one of key focus areas of our people agenda. Towards promoting diversity, we have developed a definitive Diversity Plan till 2015. Learning & Development (L&D) framework at Siemens is designed to address the business requirements as well as personal development aspirations of employees. We also support in continual education of our employees and workmen who wish to pursue higher education. We have a Structured Leadership Development framework which identifies high potential candidates and grooms them for future leadership positions.

Environment Protection and Safety at Siemens are given utmost priority. We have adopted Corporate Occupational Health, Safety and Environment policy, Standard on Environmentally Compatible Product and Systems Design and Product Safety Guidelines that reaffirm our commitment to minimise the impacts of our products, operations and services on the environment. We have established well defined EHS management systems at all our plants. Safety management at our project sites at client premises is a significant challenge owing to various complexities of client maturity, contractor capabilities, floating contractual workforce, language and cultural barriers etc. To address these challenges, we have

adopted a four level EHS management structure with a 'Zero Harm Culture' defining our overall objective

We believe that inclusive growth and equitable development are vital components of community prosperity which is sustainable. To further strategically align our community development agenda with our business model, we have developed a Corporate Citizenship Strategy. The strategy serves to focus more on integrating community development issues with business strategies to leverage our core competencies while addressing stakeholder needs. This strategy has seven focus areas under the three main pillars – Education, Environment and Social & Humanitarian.

Sustainability at Siemens has been and will continue to be at the core of our DNA to help us continue to do what we do the best – innovate for a sustainable society. We have published our Business Responsibility Report in accordance with Clause 55 of Listing Agreement with Stock Exchanges in India. As a Green Initiative, we have hosted our full BRR for the year 2013 on our website, which can be accessed at http://www.siemens.co.in/en/about_us/index/sustainability.htm and http://www.siemens.co.in/en/index/investor/annual_report.htm

Siemens Ltd. delivered the core rail systems for Rapid Metro Rail Gurgaon. Supporting infrastructural development in India through such projects resonate our vision of transforming cities for the better through sustainable technology.

Project Asha is an integrated, sustainable development initiative that uses Siemens technology for transforming the lives of around 300 villagers in Amle village, around 130 kilometres from Mumbai.

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

1. Report on the Financial Statements

We have audited the accompanying financial statements of Siemens Limited ("the Company"), which comprise the Balance Sheet as at September 30, 2013, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

2. Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view

in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at September 30, 2013;
- (b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

5. Report on Other Legal and Regulatory Requirements

- i. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- ii. As required by section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - (c) The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956 (read with the General Circular 15/2013 dated 13/9/2013 issued by the Ministry of Corporate Affairs);
 - (e) On the basis of written representations received from the directors as on September 30, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on September 30, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

Annexure referred to in paragraph 5(i) of our report of even date

Re: Siemens Limited ('the Company')

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. As informed, no material discrepancies were noticed on such verification.
- (c) There was no disposal of a substantial part of fixed assets during the year.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year.
- (b) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory and no material discrepancies were noticed on physical verification.
- (iii) (a) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained under section 301 of the Companies Act, 1956. Accordingly, the provisions of clause 4(iii)(a) to (d) of the Order are not applicable to the Company and hence not commented upon.
- (e) According to information and explanations given to us, the Company has not taken any loans, secured or unsecured, from companies, firms or other parties covered in the register maintained under section 301 of the Companies Act, 1956. Accordingly, the provisions of clause 4(iii)(e) to (g) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, having regard to the explanation that certain items purchased are of special nature for which suitable alternative sources do not exist for obtaining comparative quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business, for the purchase of inventory and fixed assets and for the sale of goods and services. During the course of our audit, we have not observed any major weakness or continuing failure to correct any major weakness in the internal control system of the company in respect of these areas.
- (v) (a) In our opinion, there are no contracts or arrangements that need to be entered in the register maintained under Section 301 of the Companies Act, 1956. Accordingly, the provisions of clause 4(v)(b) of the Order is not applicable to the Company and hence not commented upon.
- (vi) The Company has not accepted any deposits from the public.
- (vii) In our opinion, the Company has an internal audit system commensurate with the size of the Company and nature of its business.
- (viii) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 209(1)(d) of the Companies Act, 1956, and are of the opinion that *prima facie*, the prescribed accounts and records have been made and maintained.
- (ix) (a) Undisputed statutory dues including provident fund, investor education and protection fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty, cess and other material statutory dues have been regularly deposited with the appropriate authorities though there have been slight delays in few cases.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, investor education and protection fund, employees' state insurance, income-tax, wealth-tax, service tax, sales-tax, customs duty, excise duty cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (c) According to the records of the Company, the dues outstanding of income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty and cess on account of any dispute, are as follows:

Name of the statute	Nature of dues	Amount ₹ in millions)	Period to which the amount relates	Forum where the dispute is pending

Notes to the financial statements for the year ended 30 September 2013 (Currency: Indian rupees millions)

Basis of preparation of financial statements

The financial statements are prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain derivative instruments which are measured at fair value in accordance with generally accepted accounting principles in India ("Indian GAAP") and comply in all material respects with the accounting standards notified in the Companies (Accounting Standards) Rules 2006, (as amended) issued by the Central Government, in consultation with National Advisory Committee on Accounting Standards ('NACAS') and relevant provisions of the Companies Act, 1956 ('the Act').

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

1. Significant accounting policies

1.1 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

1.2 Tangible fixed assets and depreciation

Fixed assets are stated at cost of acquisition or revalued amounts less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes taxes, duties, freight and other incidental expenses related to the acquisition and installation of the respective assets.

Depreciation is provided on the straight-line method ('SLM'). The depreciation rates prescribed in Schedule XIV to the Act are considered as the minimum rates. If the management's estimate of the useful life of a fixed asset at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid Schedule, depreciation is provided at a higher rate based on the management's estimate of useful life/remaining life.

Diagnostics equipments are being treated as traded items of inventory when they are received. However, if these instruments are issued from inventory to customers under placement agreement, these are treated as capital asset in the period of such issue and are stated at cost less accumulated depreciation.

The key fixed asset blocks and related annual depreciation rates, which in management's opinion reflect the estimated useful economic lives of the fixed assets, are:

Asset	Rate
Land	-
- Freehold land	Over the lease period
- Lease hold	
Buildings	
- Factory buildings	3.33 - 6.66%
- Other buildings	2 - 2.5%
- Leasehold improvements	Over the lease period
Plant and equipments	
- Assets specific to a project	Over the life of the project
- Special machine tools	10 - 20%
- Other plant and equipments	8.33 - 25%
Furniture, fixtures and office equipments	10 - 33.33%
Vehicles	12.5 - 25%

1.2 Tangible fixed assets and depreciation (Continued)

Where depreciable assets are revalued, depreciation is provided on the revalued amount and the additional depreciation on accretion to assets on revaluation is transferred from revaluation reserve to the statement of profit and loss.

Assets costing ₹ 5,000 or less are fully charged to the statement of profit and loss in the year of acquisition.

Items of fixed assets that have been retired from active use and are held for disposal are stated at the lower of their net book value and estimated net realizable value and are disclosed separately in the financial statements.

Capital work-in-progress includes the cost of fixed assets that are not ready to use at the balance sheet date.

1.3 Intangible assets

Intangible assets comprise goodwill, software and technical know-how. These intangible assets are amortised on straight-line basis based on the following useful lives, which in management's estimate represents the period during which economic benefits will be derived from their use:

Asset	Useful life
Goodwill	36 - 60 months
Software	36 - 60 months
Technical know-how	60 - 120 months

1.4 Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset or cash generating unit.

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost, had no impairment been recognised.

1.5 Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments.

Long-term investments are carried at cost. Provision for diminution is made to recognize a decline, other than temporary in value of long-term investments and is determined separately for each individual investment.

Investment property

An investment in land or buildings, which is not intended to be occupied substantially for use by or in the operation of the Company, is classified as investment property. Investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprise purchase price, borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the investment property to its working condition for the intended use.

Notes to the financial statements (*Continued*) for the year ended 30 September 2013 (Currency: Indian rupees millions)

1.5 Investments (*Continued*)

Investment property (Continued)

Depreciation on investment property is calculated on a straight line basis based on the useful lives estimated by the management or that prescribed under the Schedule XIV to the Act, whichever is higher. The Company has used depreciation rate of 1.39% - 3.45%.

On disposal of an investment property, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

1.6 Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of products is recognised on transfer of significant risk and rewards of ownership of the products to the customers, which is generally on dispatch of goods. Sales are stated exclusive of sales tax and net of trade and quantity discount.

Revenue from services is recognised as per the terms of the contract with the customer using the proportionate completion method.

Revenue from services represents service income other than from services which are incidental to sale of products and projects.

Income from fixed price construction contracts is recognised by reference to the estimated overall profitability of the contract under the percentage of completion method. Percentage of completion is determined as a proportion of the costs incurred upto the reporting date to the total estimated contract costs. Contract revenue earned in excess of billing has been reflected as "Project Excess Cost" under "Other current assets" and "Billing in excess" of contract revenue has been reflected under "Current Liabilities" in the balance sheet. Provision for expected loss is recognized immediately when it is probable that the total estimated contract costs will exceed total contract revenue.

Commission income is recognised when proof of shipment is received from the supplier.

Interest income is recognised on the time proportion basis.

Export incentives receivable are accrued for when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection of export proceeds.

1.7 Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials are valued at the lower of cost and net realisable value. Cost is determined on the basis of the weighted average method.

Work-in-progress, finished goods and traded goods are valued at the lower of cost and net realisable value. Excise duty is included in the value of finished goods inventory. Cost is determined on a weighted average basis.

The net realisable value of work-in-progress is determined with reference to the estimated selling price less estimated cost of completion and estimated costs necessary to make the sale of related finished goods. Raw materials held for the production of finished goods are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

1.8 Leases

Where the Company is the lessee:

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased items are classified as operating leases. Lease payments under an operating lease, are recognised as an expense in the statement of profit and loss on a straight line basis over the lease term.

Where the Company is the lessor:

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the statement of profit and loss.

1.9 Employee benefits

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia is recognised in the period in which the employee renders the related service.

(b) Post-employment benefits

(i) **Defined Contribution Plans:** The Company's approved superannuation scheme and employee state insurance scheme are defined contribution plans. The Company's contribution paid/payable under the schemes is recognised as expense in the statement of profit and loss during the period in which the employee renders the related service.

(ii) **Defined Benefit Plans and other Long Term Benefits:** The Company's provident fund, gratuity, pension and medical benefit schemes are defined benefit plans. Leave wages, retention bonus, silver jubilee and star awards are other long term benefits. The present value of the obligation under such defined benefit plans and other long term benefits are determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Provision for leave wages, pension, medical benefit, retention bonus, silver jubilee and star awards which is expected to be utilized within the next 12 months is treated as short term employee benefits and beyond 12 months as long term employee benefits. For the purpose of presentation, the allocation between short and long term provisions has been made as determined by an actuary.

Actuarial gains and losses are recognised immediately in the statement of profit and loss.

1.10 Foreign currency transactions

The Company is exposed to currency fluctuations on foreign currency transactions. Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Exchange differences arising on foreign exchange transactions settled during the year are recognized in the statement of profit and loss of the year.

Translation

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the statement of profit and loss. Non monetary items are stated in the balance sheet using the exchange rate at the date of the transaction.

Notes to the financial statements (*Continued*) for the year ended 30 September 2013 (Currency: Indian rupees millions)

1.10 Foreign currency transactions (*Continued*)

Derivative instruments

The Company's exposure to foreign currency fluctuations relates to foreign currency assets, liabilities and forecasted cash flows. The Company limits the effects of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives. The Company enters into forward exchange contracts, where the counterparty is a bank.

As per Accounting Standard ('AS') 11 – 'The Effects of Changes in Foreign Exchange Rates', the premium or the discount on forward exchange contracts not relating to firm commitments or highly probable forecast transactions and not intended for trading or speculation purpose is amortized as expense or income over the life of the contract. All other derivatives except cash flow hedges, which are not covered by AS 11, are measured using the mark-to-market principle with the resulting gains / losses thereon being recorded in the statement of profit and loss.

Hedge Accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates some of the forward contracts in a cash flow hedging relationship by applying the hedge accounting principles.

These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised directly in Cash Flow Hedge Reserve under Reserves and Surplus, net of applicable deferred income taxes and the ineffective portion is recognised immediately in the statement of profit and loss.

Amounts accumulated in Cash Flow Hedge Reserve are reclassified to profit and loss in the same periods during which the forecasted transaction materialises.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Hedging Reserve Account is retained there until the forecasted transaction occurs.

If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognised in Cash Flow Hedge Reserve is immediately transferred to the statement of profit and loss for the period.

1.11 Taxation

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law), deferred tax charge or credit (reflecting the tax effect of timing differences between accounting income and taxable income for the year) computed in accordance with the relevant provisions of the Income Tax Act, 1961. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the asset can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, all deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence of realisation of the assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonable/virtually certain (as the case may be) to be realised.

1.12 Earnings per share

Basic and diluted earnings per share is computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

1.13 Provision

Provisions are recognized when the Company recognises it has a present obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

1.13 Provision (Continued)

Disclosures for contingent liability are made when there is a possible or present obligation which arises from past events which is not recognised since it is not probable that there will be an outflow of resources. When there is a possible or present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Contingent assets are neither recognized nor disclosed in the financial statements.

1.14 Cash and Cash equivalents

Cash and cash equivalents include cash, cheques in hand, cash at bank and short term deposits with banks having maturity of three months or less.

1.15 Insurance claims

Amounts by way of insurance claims are recognised as assets when it is reasonably certain that the claim is receivable and is recorded as a reduction in the expense where the corresponding loss has been debited.

1.16 Operating cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Revised Schedule VI to the Companies Act, 1956. The Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

2. Amalgamations

2.1. Amalgamation of Siemens Power Engineering Pvt. Ltd. (SPEL)

Pursuant to the scheme of amalgamation ('the scheme') of erstwhile SPEL with the Company under sections 391 to 394 of the Companies Act, 1956 sanctioned by the Honorable High Court of Bombay and Punjab & Haryana on 2 November 2012 and 23 November 2012 respectively, the assets and liabilities of SPEL were transferred to and vested in the Company with effect from 1 October 2011. Accordingly, the scheme has been given effect to in these accounts.

The operations of SPEL include drawings and designing for planning and setting up of power plant worldwide, by using standard and specifically customized software.

34 Disclosure relating to Provisions

Provision for warranty

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacement, material cost, servicing and past experience in respect of warranty costs. It is expected that this expenditure will be incurred over the contractual warranty period.

Provision for liquidated damages

Liquidated damages are provided based on contractual terms when the delivery / commissioning dates of an individual project have exceeded or are likely to exceed the delivery / commissioning dates as per the respective contracts. This expenditure is expected to be incurred over the respective contractual terms upto closure of the contract (including warranty period).

Provision for loss orders

A provision for expected loss on construction contracts is recognised when it is probable that the contract costs will exceed total contract revenue. For all other contracts loss order provisions are made when the unavoidable costs of meeting the obligation under the contract exceed the currently estimated economic benefits.

Other matters

The Company has made provisions for known contractual risks, litigation cases and pending assessments in respect of taxes, duties and other levies, the outflow of which would depend on the cessation of the respective events.

The movements in the above provisions are summarised below:

38 (iii) Other disclosures :

- Inter-segment prices are normally negotiated amongst the segments with reference to the costs, market price and business risks.
- Profits / losses on inter segment transfers are eliminated at the Company level.

(iv) Segment information :

The primary and secondary reportable segments are business segments and geographical segments respectively.

Business Segments: The business of the Company is divided into four segments. These segments are the basis for management control and hence, form the basis for reporting. The business of each segment comprises of:

- **Infrastructure and Cities:-** Provides Electrical Installation Technologies, i.e. Products for Building, e.g. Miniature Circuit Breakers, Distribution Boards, Residual Current Circuit Breakers etc. It also provides solutions for rail automation, railway electrification, light and heavy rail, locomotives, trains, turnkey projects and integrated services. Also provides solutions for the automation of power grids to products like medium-voltage switchgear and components.
- **Industry:-** Provides complete range of automation products & systems, industrial automation systems & low-voltage switchgears, complete range of large and standard drives and motors, special purpose motors, process and motion control systems. Also undertakes turnkey projects in the industrial and infrastructure sectors over the entire life cycle including concept, engineering, procurement, supplies, installation, commissioning and after sales services.
- **Energy:-** Offers highly efficient products and solutions for power generation based on fossil fuels. It ranges from individual gas and steam turbines and generators, to turnkey power plants. Also offers customers products and solutions used for the extraction, conversion and transport of oil and gas. Also provides solutions for power generation and distribution including products and solutions in the high-voltage field – such as High Voltage Direct Current (HVDC) transmission systems, substations, switchgear and transformers.
- **Healthcare:-** Provides diagnostic, therapeutic and life-saving products in computer tomography (CT), magnetic resonance imaging (MRI), ultrasonography, nuclear medicine, digital angiography, patient monitoring systems, digital radiography systems, radiology networking systems, lithotripsy and linear accelerators.

Geographical Segments: The business is organised in two geographical segments i.e. within India and outside India.

- b)** The fund formed by the Company manages the investments of the Gratuity Fund. Expected rate of return on investments is determined based on the assessment made by the Company at the beginning of the year on the return expected on its existing portfolio, along with the estimated incremental investments to be made during the year. Yield on portfolio is calculated based on a suitable mark-up over the benchmark Government securities of similar maturities. The Company expects to contribute ₹ 150 (2012: ₹ 100) to gratuity fund in 2013-14.
 - c)** The estimates of future salary increases, considered in actuarial valuation, take in to account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
 - d)** The Company has contributed ₹ 449 (2012: ₹ 396) towards provident fund during the year ended 30 September 2013. The Guidance on Implementing AS 15, Employee Benefits (Revised 2005) issued by Accounting Standard Board (ASB) states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The Actuary has accordingly provided a valuation and based on the assumptions provided below there is no shortfall as at 30 September 2013 and 2012 respectively.

The details of the fund and plan asset position as at 30 September are as follows:

	As at 30 September	
	2013	2012
Present value of benefit obligation at year end	6,335	5,549
Fair value of plan assets at year end	6,340	5,654
Shortfall	-	-

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

	As at 30 September	
	2013	2012
Government of India securities (GOI) bond yield	9.00%	8.60%
Remaining term of maturity (in years)	14.20	10.23
Expected guaranteed interest rate	8.50%	8.60%

Dear Member(s),

Sub.: Green Initiative in Corporate Governance - Electronic Mode of service of documents

The Ministry of Corporate Affairs (MCA) has, vide its Circular No. 17/2011 dated 21.04.2011 and Circular No. 18/2011 dated 29.04.2011, allowed companies to serve all notices and correspondences to members including Annual Reports i.e., Audited Financial Statements, Directors' Report, Auditors' Report, etc., through electronic mode (e-mail). The initiative taken by the MCA is a welcome move for the society at large, as this will reduce paper consumption to a great extent, ensure prompt receipt of communication and avoid loss of document in postal transit. Keeping in view of the theme underlying the Circulars issued by MCA, we propose to henceforth send documents like notices, intimation under Section 302 of the Companies Act, 1956, Annual Reports, Financial Results, etc., to our members through electronic mode.

We are sure that you will whole-heartedly support this initiative for a greener environment and co-operate with the Company to make it a success. We therefore request you to fill up the Information Slip below for registering your e-mail ID and send it to our Registrar & Share Transfer Agent (RTA), TSR Darashaw Pvt. Ltd. You can also send us an e-mail from your e-mail ID to Corporate-Secretariat.in@siemens.com / csg-green@tsrdarashaw.com for receiving the aforesaid documents in electronic form and mentioning therein your Folio No. / DP ID / Client ID as the case may be. On receipt of the Information Slip or an e-mail from you for registering your e-mail ID, we shall send such documents in electronic form to the said e-mail ID in future.

Please note that the Information Slip should be signed by the first / sole-holder as per the specimen signature recorded with the RTA. If you do not register your e-mail ID, a physical copy of the Annual Report and other communication / documents will be sent to you free of cost, as per the current practice. These documents will also be available on the Company's website www.siemens.co.in for your ready reference under the Investors' Relations Section.

Let's be part of this 'Green Initiative'

Thanking You,
Yours faithfully,
