OPERATIONS & FUTURE OUTLOOK

During the year under review, the current economic scenario affected the company seriously. The company closed the financial year with a marginal increase in turn over. Profits came under pressure mainly due to lower than projected increase in turnover and increase in costs.

A number of steps taken to reduce costs and increase market penetration will lead to improved performance in the coming years. The current economic scenario may however continue to affect the results of the Company in the short term. With economic improvement, the Indian Paper Industry is expected to grow at a higher rate than the GDP growth, specially in the packaging segment. Additionally, with renewed thrust on exports, the expansion cum modernisation once completed, will enable your Company to enter new markets.
