Further, this Scheme also provides for reduction and cancellation of equity shares of the Resulting Company held by the Demerged Company and its nominees (without payment of consideration), in terms of section 66 of the Companies Act, 2013. The CIN of the Resulting Company is U24290WB2020PLC241791 and the PAN of the Resulting Company is AAICD1853B.

The Resulting Company has been recently incorporated for demerging the Compounding Business Undertaking of the Demerged Company to the Resulting Company. The Resulting Company has not changed its registered office address, name or objects since incorporation.

### C. RATIONALE FOR THIS SCHEME OF ARRANGEMENT

The Demerged Company is engaged in the business of manufacturing plastic compounds and owns the following two business undertakings:

- Compounding Business Undertaking; and
- Reprocessing Business Undertaking

The Demerged Company would demerge its 'Compounding Business Undertaking' (*hereinafter referred to as the 'Demerged Undertaking'*) to the Resulting Company and it would continue to run and operate the 'Reprocessing Business Undertaking' (*hereinafter referred to as the 'Remaining Undertaking'*). The underlying business rationale and objectives are as follows:

1. The Demerged Undertaking and the Remaining Undertaking have their own set of strengths and dynamics in the form of nature of risks, competition, challenges, opportunities and business methods, leading to different growth potentials. Hence, segregation of the two undertakings would enable a focused management to explore the potential business opportunities effectively and efficiently;
2. The demerger would result in achieving efficiency in operational processes by designing and implementing independent strategies specifically designed for the two businesses and in optimizing profitability. This would in turn enhance the shareholders' wealth.
3. Targeting and attracting new investors with specific focus and expertise in the two businesses, thereby providing the necessary funding impetus to the long-term growth strategy of the two businesses;
4. The Compounding Business Undertaking of the Demerged Company is an old and diverse undertaking, that caters to a range of sectors *viz.*, housing wiring, high voltage cables, packaging, white goods, automotive, footwear, to name a few. The Compounding Business Undertaking has proved its significant resistance to market volatility over the years and therefore, on a standalone basis, it has scope for enhanced valuation and entry of strategic domestic / international players by way of technological tie-ups / direct acquisition of stake in the business. Hence, demerger of the Compounding Business Undertaking would help in targeting and attracting new investors with specific

*[Handwritten signature]*

focus and expertise in the business, thereby providing the necessary funding impetus to the long-term growth strategy of the businesses.

5. The remaining Undertaking of the Demerged Company, inter alia, comprises of a Reprocessing Business Unit located in Falta, West Bengal, and it holds a license for reprocessing of plastic waste which has restriction on transferability. A similar license is also held in a Dubai based wholly owned subsidiary ['WOS'] of the Demerged Company. Since ultimate ownership of such licenses relating to the Remaining Undertaking rests with the Demerged Company, the Reprocessing Business Undertaking along with its corresponding licenses as aforesaid, would be continued to be retained by the Demerged Company.
6. Further, given the recent international trends and demand for recycling of plastics (recognized as upcycling across the world), the Reprocessing Business Undertaking has significant long-term growth prospects. Moreover, growth potential of the Reprocessing Business Undertaking is substantially high. Hence, demerger of the Compounding Business Undertaking would also enhance the standalone valuation for Reprocessing Business Undertaking. Such higher growth and valuation potentials would be attractive to specific set of strategic domestic / international players who would look to target direct acquisition of stake in the business. The transfer and vesting of the Demerged Undertaking to the Resulting Company will enable better focus and management of the Demerged Undertaking and the Remaining Undertaking.
7. The Reprocessing Business Undertaking is a debt free unit and has significantly lower working capital requirement as compared to the Compounding Business Undertaking. Hence, demerger of the Compounding Business Undertaking would help in independently managing the different funding requirements of the two business, both in terms of type of funds and amount of infusion required for the businesses.
8. As part of expansion plans for Reprocessing Business Undertaking, the Demerged Company intends to explore chemical recycling and other recycling activities, which are also expected to attract strategic domestic and international investors.

Pursuant to the Scheme, the equity shares issued by the Resulting Company would be listed on BSE. Therefore, the existing shareholders of the Demerged Company would hold the shares of two listed entities after the Scheme becoming effective. Such shareholders would then be able to choose whether they want to remain invested in either or both the businesses / operations of the Demerged Company, giving them flexibility in managing their investment in the two businesses having differential dynamics.
